Gaggle Platform User Guide / Safety Tab

How do I select the date ranges for the data in the graphs?

School A		Select date	Year to date	⌄	Select school	All schools	⌄

You can determine what data will display in the graphs on your Dashboard by data range. To do so, begin by choosing the **Select date** drop-down menu.

You then have the options to view data from **This week**, **This month**, **Year to date**, or you can enter your own custom **Date range**.

If you enter a custom **Date range**, select **Apply** when finished.
